No... I do want to meet with you. What does your schedule look like next week? Tues. morning or Wed afternoon are good for me.
Rae

Subject: RE: E. Liverpool 39-029-0020 Manganese Data 2013.xlsx

As I said in the message from early this morning, I am only available until noon. No worries. I thought Motria suggested you wanted to meet with me. If all you want is my data, you have it.

Ok...great. Yes, evidently the company is in "compliance" as far as enforcement is concerned so it's been punted back up to air toxics to see what we can when we talk to the company. I'm available to talk Wed. afternoon or Thursday morning.

Let's talk. Last summer the levels got up pretty screamingly high again, for reasons I thought were being investigated by Enforcement. I have data since 2000.

Rae – Michelle Colledge gets the monthly monitoring reports from OEPA and has been following data trends for a long time. Instead of recreating this effort, you might want to check in with her. Michelle – FYI, Rae has been tasked with approaching the company about potential voluntary reductions as suggested by our Enforcement friends. If you're still actively engaged in this project, you two might want to talk.
